

AMI adds Fanuc Laser Service to Network Strategic Alliance expands offerings from AMI and ALS

CINCINNATI, OHIO (March 10, 2009) - *Automated Machinery, Inc.* (AMI) and *Advanced Laser Services, LLC* (ALS), jointly announce a strategic alliance that will substantially enhance the ability of both companies to provide a broader range of services for CNC Precision Fabricating Equipment.

ALS owner Chris Kelbaugh has over 12 years of experience in FANUC laser service, is factory trained, and was previously employed at FANUC America for 9 years as a Senior Laser Support Specialist.

"An alliance with ALS, in addition to our team of experienced service engineers, is part of AMI's ongoing strategy to lead the industry with technical competence," notes Mark Sackett, president of AMI. "We continually seek to expand AMI's capabilities in order to provide the best solutions for our customers."

"Collaborating with AMI will provide both AMI's and ALS's customers a comprehensive support network for their fabricating equipment," ALS Owner Chris Kelbaugh states. "We are excited to provide enhanced options to our customers."

Automated Machinery, Inc. (AMI), founded in 1982, is the leading independent provider of service, parts, retrofits and maintenance programs for turret punch presses, press brakes and other CNC sheet metal forming equipment. AMI's experienced service team provides expert technical support and services, as well as a comprehensive inventory of new, discontinued and reconditioned replacement parts for a variety of turret punch press and press brake brands and other CNC fabricating machines.

Advanced Laser Services, LLC (ALS), founded in 2006, is an independent laser service & parts company specializing in FANUC metal cutting laser equipment used by a variety of machine builders ... Amada, Cincinnati, Han Kwang, Jiangsu, Koike, LVD, NTC, Tanaka and Mazak. ALS provides on-site service and training, and Fanuc laser parts, including rebuilt turbos, vacuum pumps, power supply repairs, and a variety of miscellaneous parts at a substantial savings over OEM prices.
