### ***Appointment of Field Service Engineer in Northeast adds to AMI's Expertise and Service Area***

CINCINNATI, OHIO (May 5, 2008) - Automated Machinery, Inc. (AMI) is pleased to announce the appointment of Bob Bolduc as a field service engineer based in Kensington, New Hampshire.

Bolduc brings more than 27 years experience in the sheet metal fabrication and machinery field to AMI, including working for Murata as a field service engineer.

"The addition of Bob to our team of experienced service engineers is part of AMI's ongoing strategy to lead the industry with technical competence for specific equipment types," notes Mark Sackett, president of AMI. "We continually seek to hire experienced, career field engineers who complement this strategy. The addition of an experienced field engineer in the Northeast will uniquely position AMI to provide cost-effective repairs and maintenance in that region and beyond."

Operating out of Kensington, New Hampshire, Bolduc will service a variety of CNC sheet metal fabricating machines and represent AMI throughout the Midwest United States and other areas as needed.

Automated Machinery, Inc. (AMI), founded in 1982, is the leading independent provider of service, parts, retrofits and maintenance programs for turret punch presses, press brakes and other CNC sheet metal forming equipment. AMI's experienced service team provides expert technical support and services, as well as a comprehensive inventory of new, discontinued and reconditioned replacement parts for a variety of turret punch press and press brake brands and other CNC fabricating machines.
